

# Happy-go-lucky

Director: Mike Leigh  
2008 (118')

Poppy is a young woman in the prime of her life. In fact, she loves just about everything in her life; her family, her friends, her job. She has an optimism and an enthusiasm that affect all whoever comes into contact with her, even if they don't share this particular life view. In Happy-Go-Lucky Mike Leigh directs what must be his most positive film and which has at its core his most life-affirming character, Poppy, played to critical acclaim by Sally Hawkins. If the heroine of the piece is happy-go-lucky then this is not true of all those around her, especially those who have been dealt a difficult hand by life.
